		Examiner	Art Unit				
		Naghmeh Mehrpour	2686				
Period fo	The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 3. Claims 1-19, are rejected under 35 U.S.C. 102(e) as being anticipated by Kim et al. (US Publication 2004/0121802 A1).

Regarding claims 1, 6, 11, 15, Kim teaches a multi-functional mobile terminal providing a phone function, comprising:

- a power-supply unit for selectively providing a power-supply signal to a corresponding module according to a power-supply entry signal (0024);
- a personal information terminal module including a first display for controlling the first display to display status information of an executed operation according to an entry command using a power-supply signal received from the power-supply unit (007-0008, 0030);
- a mobile terminal module including a second display for executing a corresponding operation according to a prescribed command after receiving the prescribed command from the personal information terminal module using a

Art Unit: 2686

power-supply signal received from the power-supply unit, and displaying operation status information on the first display when the personal information terminal module is in a powered-on state, and displaying the operating status information on the second display when the personal information terminal module is in a powered-off state (0007-0008, 0034); and a module selector for controlling a power-supply operation of the power-supply unit to selectively provide the power-supply signal to at least one of the personal information terminal module and the mobile terminal module(0031-0037).

Regarding claims 2, 7, 12, 16, Kim teaches a multi-functional mobile terminal as set forth in claim 1, wherein the mobile terminal module transmits update data created by operations of the mobile terminal module while the personal information module is in a powered-off state, to the personal information module in order to be stored therein, when the personal information module is powered on (0031, 0034-0035).

Regarding claims 3, 8, Kim inherently teaches a multi-functional mobile terminal as set forth in claim 6, wherein the mobile terminal module includes a command entry section for entering a prescribed command to independently operate the mobile terminal module when the personal information terminal module is in a powered-off state, and if the command entry section is selected, then the mobile terminal module displays operation status information of the mobile terminal module on the display according to a command signal selected by the command entry section (0028-0031).

Application/Control Number: 10/752,394 Page 4

Art Unit: 2686

Regarding claims 4, 9, 13, 17, Kim teaches a multi-functional mobile terminal as set forth in claim 1, wherein the personal information terminal module is a PDA (Personal Digital Assistant) module (0020).

Regarding claims 5, 10, 14, 18, Kim teaches a multi-functional mobile terminal as set forth in claim 1, wherein the mobile terminal module is a mobile phone module (0020).

Regarding claim 19, Kim teaches a multi-functional mobile terminal as set forth in claim 15, wherein the external device is an external storing media (0007-0008).

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Chmaytelli (US Patent 6,233,464) disclose power off in combined PDA telephone

Chhatriwala et al. (US Patent 6,725,060 B1) disclose method and apparatus for conserving power in an integrated electronic device that includes a PDA and wireless telephone

Tsai et al. (US Patent 6,384,626) disclose programmable apparatus and method for programming a programmable device

5. Any responses to this action should be mailed to:

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Naghmeh Mehrpour whose telephone number is 571-272-7913. The examiner can normally be reached on 8:00-6:00.

Art Unit: 2686

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marsha Banks-Harold be reached (571) 272-7905.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
